GORDON RESEARCH CONFERENCES
GORDON RESEARCH CENTER
UNIVERSITY OF RHODE ISLAND
KINGSTON, RHODE ISLAND 02881-0801

ADDRESS REPLY TO:

January 14, 1991

Dr. Harmon C. McAllister, Jr.
Scientific Director
The Council for Tobacco Research
900 Third Avenue, 4th Floor
New York, New York 10022

Dear Dr. McAllister:

I am enclosing the program for the 1991 Gordon Research Conference on Drug Metabolism which will be held at the Holderness School in New Hampshire during July 15-19, 1991. This program and an application form will appear in the March 2nd issue of Science. I hope you will be able to attend this year's conference. Please feel free to distribute copies of this letter to your colleagues who might be interested in attending.

Thanks to the excellent session chairmen, this year's program is outstanding. The 1991 conference will address the role of drug metabolism in drug toxicity (activity and reactivity of phase II conjugates, metabolism in autoimmune disease), novel drug metabolism reactions, progress in our understanding of the structure and function of peroxidases and flavoprotein monooxygenases, the disposition of macromolecules and the application of newer technologies to drug metabolism issues (expression of drug metabolizing enzymes: applications to the pharmaceutical industry, new analytical approaches in drug disposition). I am confident that this program will have widespread interest and impact to scientists from both industry and academia.

The financial support needed to run the meeting is no longer available from the National Institute of Health. Fortunately, industry has been very supportive in helping to fill this need and I hope this will continue. I personally consider the Gordon Conference to be the most effective means for scientific exchange by industry scientists with university and regulatory scientists. Any assistance from your company would be an important contribution in sponsoring this year's conference. If your company would like to support the conference, please make your check payable to the Gordon Research Conference on Drug Metabolism. You can mail your contributions to me at Glaxo Inc., Five Moore Drive, Research Triangle Park, North Carolina 27709.

I would like to thank you in advance for supporting the Gordon Research Conference on Drug Metabolism. Please contact me by phone (919) 990-5010 or by FAX (919) 990-5029 if I can provide any further information concerning the conference.

Sincerely yours,

Gerald Miwa

Gerald T. Miwa, Ph.D.
Chairman
1991 Gordon Research Conference on
Drug Metabolism

Dr. McCallister,

This year, in addition to the usual expenses of the Gordon Conference, I am trying to raise additional funds to support the participation of a few graduate students. I would be very grateful for any assistance in raising a $1500 contribution from the Council.

Thank you

GTM/rfg
